

FEBRUARY 15, 2023 | UNION BALLROOM | 10AM - 2PM

MAJOR EXPO

SPRING 2023 EVENT PROGRAM

WELCOME!

After 3.5 years, the Major Exploration Program is bringing back its Major Expo! With over 75 academic departments, student support services, and involvement opportunities gathered in one place, the 2023 Major Expo is the biggest and best place to explore majors, minors, certificates, internships, research, and learning abroad opportunities. It's free, it's casual, it's informative, and fun, AND there's free popcorn and swag!

How Does it Work?

It's a meet-and-greet setting: drop in and chat informally with the experts from a program, gather information, and enjoy some face time with professors and staff in an inviting, friendly atmosphere. The key here is casual. No appointments, no plans, no transcripts – just a place to talk about the fields of study or activities that interest you.

PROGRAM HIGHLIGHTS

Welcome

Ways to Explore

Questions to ask at Expo

Meet your Major Exploration team

Programs in attendance + table layout

POPCORN & TREATS

OTHER WAYS TO EXPLORE

- Take UGS 1050: Major Exploration (1 cr)
- Review all majors, minors, and certificates at majors.utah.edu
- Check out the major maps at majormaps.utah.edu

QUESTIONS TO ASK AT THE EXPO

Academic Programs:

- What can you tell me about your major?
- What kinds of work do people usually do with this major after graduation?
- What kinds of courses are included in this major?
- Are there entrance requirements or a special admission process?
- What do you think is the most unique or interesting part of this field of study?
- Does your department offer scholarships?
- Do you have internships or special research opportunities?
- Are there any other programs you'd recommend as a complementary second major or minor?

Nonacademic Programs:

- I'm thinking about a major in _____. How can your program complement my degree?
- What marketable skills do your participants develop?
- Is there a cost involved in participating? Are there scholarships available?

Left to Right, your Major Exploration Program Team: Lisa Hutton, Nichole Hutchins, Stephanie Begaye, and Caroline Luman.

Meet the Major Exploration Team!

The Major Exploration Program (MEP) is housed within the Academic Advising Center. We're here to serve all students who are exploring their academic options at the U: our goal is to help you make an individual, intentional decision on your major, minor, and/or certificate programs.

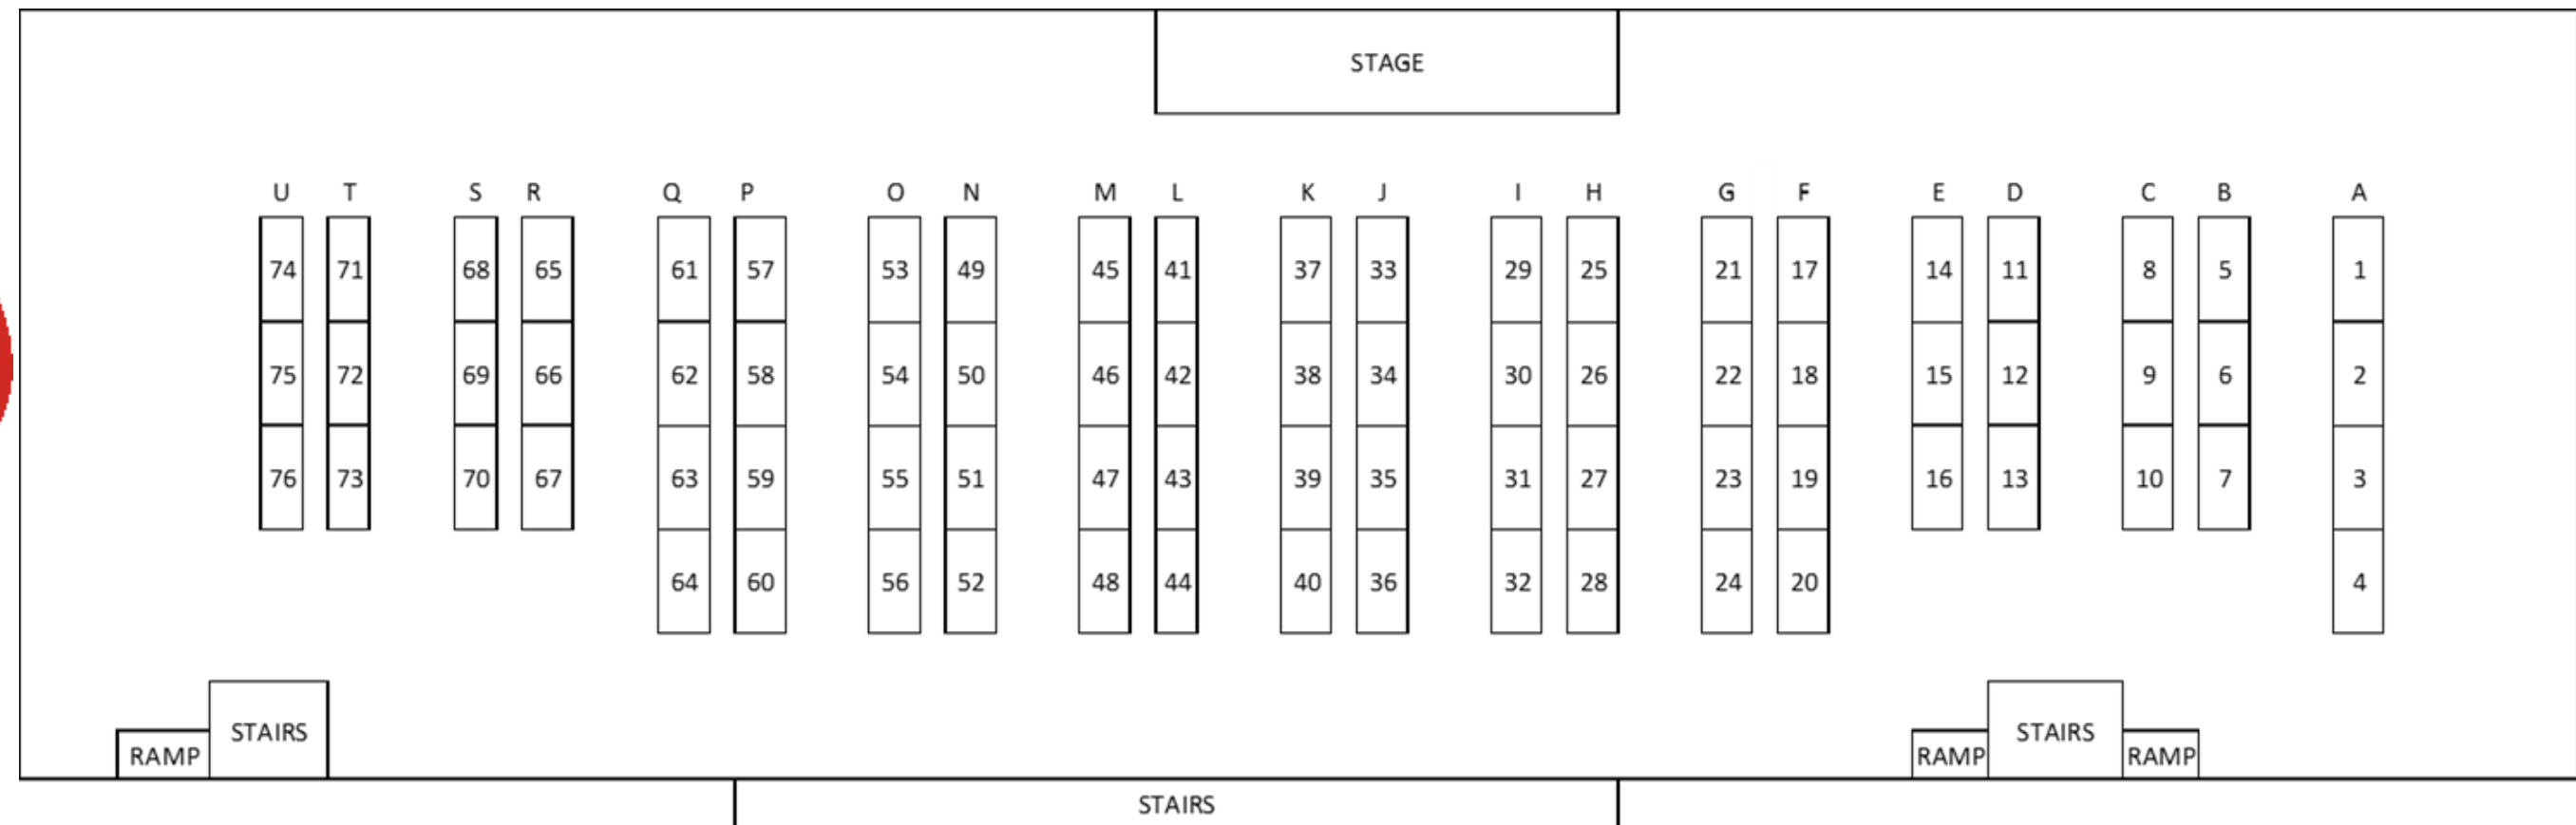

There are a lot of ways to engage with Major Exploration! You could search programs and learn more about the major

exploration process on our website, majors.utah.edu; you can attend events like today's; or you could meet with an advisor one on one to discuss exploration and learn about many other ways to explore.

While the team pictured above runs the MEP, luckily we have many more advisors who work with exploring and undeclared students. If that's you, we hope to see you in class, in an appointment, or at an event soon!
