❖ ACADEMIC PREPARATION

Academic preparation for medical school requires a Bachelor's degree and completion of a set of prerequisite classes, usually science, which vary from school to school. The most common classes are outlined on the final page of this Summary. For your degree, any major is appropriate. There is no preference in this regard, so study something you love!

❖ EXTRACURRICULAR ACTIVITIES

Preparation for medical school involves engaging in experiences that develop and demonstrate skills in communication, leadership, community service, research, and familiarity with the medical profession. What you do outside of class is as important as what you do in class so don't neglect these activities. Keep in mind that activities complement your coursework, but will not compensate for low grades. Both are important!

Things to Remember

- Make sure you have contact information for supervisors and physicians you work with or shadow in case you need a recommendation letter. Try to keep an open relationship with them after you discontinue activities.
- Keep a record of all hours of service and experiences. The **Premed Planner Spread Sheet** on our website can help with this. You will find it under Available Downloads.
- Writing reflections on each activity in a journal will be helpful when you write your personal statement.

❖ APPLICATION TIMELINE

TIMELINE	Dec	Jan	Feb	Mar	Apr	May	Jun	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr
MCAT	Register & Study		Take exam														
LORs	Request letters & get contact info from letter writers																
Application	Prep - Write draft of Personal Statement - Research Schools					- Applications open online to fill out profile/info 1 st week of May - Submit applications the first week of June at the earliest				Application deadlines Oct.-Nov. for MD Dec.-March. for DO				If no interviews, begin assessing reapplication			
						Secondary Applications				Interviews							
											Acceptance Notifications						
Financial Aid											Priority filing for federal financial aid						

❖ THE MCAT

- The MCAT is administered in January, and March through September.
- Taking the exam by spring will enable you to apply earlier. September is the last MCAT accepted by many schools for the following Fall entering class.
- The MCAT is divided into four multiple choice sections: Biological and Biochemical Foundations of Living Systems, Chemical and Physical Foundations of Living Systems, Psychological, Social and Biological Foundations of Behavior, and Critical Analysis and Reasoning Skills. You can obtain the most updated information from <https://www.aamc.org/students/applying/mcat/mcat2015/>.

❖ THE APPLICATION PROCESS

- US medical schools admit students once a year in the Fall
- Applications are submitted 12-15 months before your desired medical school enrollment date. This means the application process can begin as early as the spring after your Junior year. However, the timing depends on when you will complete your degree and the necessary premedical coursework (and successfully take the MCAT). All degrees must be posted to your transcript prior to starting medical school, and the timing is sensitive.
- While applying early in the cycle has advantages, the best time for **you** to apply is when your application is the best it can be.
- You can apply to both M.D. and D.O. schools! In fact, we encourage students to consider doing so.
- Medical schools requirements vary from school to school. Research schools early for specific information about requirements.
- There are **three** centralized application services processing primary applications for US medical schools: **AMCAS** for MD schools, **AACOMAS** for DO schools, and **TMDAS** for schools in the University of Texas system. These services are very similar, but not identical. They open online in early May each year to allow applicants to start building applications, and begin accepting submissions on or around June 1st. Refer to the chart on page 3 for additional information.
- There are a handful of private schools not affiliated with any of these centralized services and require other applications. Information is available on each school's website.
- Before submitting applications, have people with an unbiased eye go over each **entire** application to catch any errors.
- To help us advise other students, we would appreciate it if you would release your statistical information from your applications to the Health Professions Advisor when prompted. This information will always be kept confidential.

Application Comparison	TMDSAS—U of TX	AMCAS—MD	AACOMAS—DO
Primary Application Fee: # of schools included	Flat fee includes all schools, but <u>no</u> fee waivers	1 school included in fee, Extra fee for each additional	1 school included in fee, Extra fee for each additional
Add additional schools after submission?	Yes—No additional charge	Yes—Additional charge	Yes—Additional charge
Personal statement length	1 required, 5000 char limit 2 optional, 2500 char each	1 required, 5300 char limit	1 required, 4500 char limit
Extracurricular experience listings	Chronological list of all info since HS graduation (academic, extracurricular, employment, etc.)	May list up to 15 activities 700 character limit each Designate 3 ‘significant’	May list all activities 600 character limit each
Official MCAT Score Report	required	required	required
Official transcripts	TMDSAS form required	AMCAS form required	AACOMAS form required
GPA calculations* & Repeat Policy	Unique calculation with no decimals All grades averaged	Total, BCPM, and AO All grades averaged	Total, BCP, and AO All grades averaged
Early application advantage?	Yes	Yes	Yes
Deadlines?	October 1	By school, mostly Oct or Nov	By school, mostly Dec-Apr
Website	utsystem.edu/tmdsas/	www.aamc.org	www.aacom.org

*Total = Total GPA, BCPM = Biology, Chemistry, Physics, Math (Science) GPA, AO = All Other (Non-Science) GPA

❖ LETTERS OF RECOMMENDATION

- Once a medical school receives your primary application through the application service, the school will request supplementary materials, including program specific secondary applications and Letters of Recommendation (LORs).
- Application services do not share letters: Be sure to plan ahead regarding where to have your letters sent.
 - Applicants who plan to apply only to AMCAS, AACOMAS, or TMDSAS affiliated medical schools most often take advantage of the Letter Service provided by those systems.
 - If applying to both MD and DO schools, or including TMDSAS schools, unaffiliated schools, or an international program, it is easiest to subscribe to a service like Interfolio (interfolio.com/) which allows you to collect all your letters in one place and have them sent to each application service.
- Do not delay submitting your primary application while waiting for letters to arrive. Letters are part of the secondary process.
- Requirements for letters vary between schools, so research schools early and know what you need. As a general rule, we recommend students follow this list based on the UUSOM’s requirements. Plan ahead! Get to know people from these categories so they can write excellent letters for you.
 - Science Professor (BCPM)
 - Non-Science Professor OR 2nd Science Professor (Requirements vary by school)
 - Patient Exposure OR Community Service (Direct Supervisor or Volunteer Coordinator)
 - Research Supervisor OR Other Supervisor (Supervisor of your choice)

❖ PREMED GENERAL POLICIES REGARDING COURSEWORK

CLEP Credit & Correspondence Study	Not acceptable as part of the premed curriculum
AP Credits	Generally, students must take coursework beyond introductory classes waived by AP
“Online” Courses	Online <u>sections</u> of semester based university classes, or online/in person hybrid sections of semester based classes will usually be accepted. <i>Online courses which are not university semester based (independent study) will generally not be accepted.</i>
Withdrawals	W’s should be used only for emergencies, although W’s will not affect your GPA.
GPA	<i>Generally</i> the minimum GPA for Total, Science, and AO is 3.0, but may be higher or lower depending on the school. The average GPA for accepted applicants is usually in the 3.6 range for MD schools and 3.5 range for DO schools. UUSOM recommended minimum is 3.2, and average is around 3.6.

Premedical Course Guide

This guide is designed for applying to a *range* of medical schools. **It is not a comprehensive list.** Requirements may vary by school. Shading indicates the classes most commonly required by medical schools. See a PPA advisor for more information.

[Classes with * may be taken @ SLCC. However, not all medical schools accept prerequisites from 2 year schools]

BIOLOGY	CHEMISTRY	MATH	PHYSICS	NON-SCIENCE	
<p>*1210 (4) Principles of Biology [NOT waived by AP Biology] Prerequisite for most Biology classes</p>	<p>OPTIONAL preparatory courses for CHEM, MATH, and PHYS:</p> <ul style="list-style-type: none"> • <i>Math Boot Camps, MATH 10 or MATH 15</i> • <i>Chemistry Boot Camp CHEM 10</i> • <i>CHEM 1200 (3) Prep for College Chemistry</i> • <i>CHEM 1208 (1) Intro to Periodic Table</i> • <i>CHEM 2308 (1) Intro to O-Chem</i> • <i>PHYS 1500 (3) Prep for College Physics</i> <p><i>NOTE: In order to take a math class, you must have the required ACT, SAT or math placement test scores, or have successfully passed the prerequisite math class</i></p>			<p>2 Writing Classes [NOT waived by AP]</p> <p>WRTG 2010 (3) Intermediate Writing (Prereq: WRTG 1010) & Upper Division Writing (CW) (Prereq: WRTG 2010)</p>	
<p>*2325 (4) Human Anatomy (Recom. Prereq: BIOL 1210) Fulfills BIOL lab requirement for <u>most</u> M.D & D.O. schools</p>		<p>*1050 (4) & *1060 (3) College Algebra & Trigonometry (Prereq: MATH 1010) Can be substituted with 1080 (5) or 1210 (4)</p>	<p>Physics has 2 options. Consult with both your major advisor and a PPA advisor to choose the right sequence. [NOT waived by AP Physics]</p>	<p>Arts/Humanities (FF/HF)</p>	
<p>*2420 (4) Human Physiology (Prereq: BIOL 1210 & CHEM 1210) MCAT prep</p>	<p>*1210 (4) Gen Chem 1 1215 (1) Lab (Prereq: MATH 1050) [NOT waived by AP Chemistry]</p>	<p>1210 (4) Calculus 1 Recommended by <u>some</u> schools (Prereq: MATH 1050 & 1060 or 1080)</p> <p>1220 (4) Calculus II (Prereq MATH 1210) <u>may</u> be required by a few schools.</p>	<p>2010 (4) Gen. Physics 1 2015 (1) Lab (Prereq: MATH 1060)</p>	<p>2210 (4) for Scientists & Engineers 1 2015 (1) Lab (Prereq: MATH 1210)</p>	<p>Behavioral Science (BF)</p>
<p>2020 (3) Cell Biology Required by UUSOM (Prereq: BIOL 1210 & CHEM 1210)</p>	<p>*1220 (4) Gen Chem 2 1225 (1) Lab (Prereq CHEM 1210)</p>	<p>*1070 (3) Statistics (Prereq: B or higher in MATH 0980, B or higher in MATH 1010 or 1030)</p> <p>Recommended by <u>many</u> med schools. Can be substituted with PSY 3000, FCS 3210, or other statistics course.</p>	<p>2020 (4) Gen. Physics 2 2025 (1) Lab Prereq: PHYS 2010)</p>	<p>2220 (4) for Scientists & Engineers 2 2025 (1) Lab (Prereq PHYS 2210 & MATH 1220)</p>	<p>Optional Behavioral Science for MCAT Prep</p>
<p>2030 (3) Genetics OR 2210 (3) Hum. Genetics (Prereq: BIOL 2020) (Prereq: BIOL 1210) Recom. by <u>many</u> D.O. schools</p>	<p>2310 (4) O-Chem 1 2315 (2) Lab (Prereq CHEM 1220)</p> <p>2320 (4) O-Chem 2 2325 (2) Lab</p>			<ul style="list-style-type: none"> • FCS 1500 (BF) Lifespan Hum. Development • FCS 3290 (HFDV) Ethnic Minority Families • PSY 3040 (DV) Psychology of Gender • SOC 3650 (IRQBQI) Population & Society • SOC 3673 (QBQI) Social Epidemiology • ECON 3190 Intro to Health Economics • ANTH 1010 (BF) Culture & the Hum. Exp. 	
<p>BIOL/CHEM 3510 (3) Biochem I (Prereq: CHEM 2310) CHEM 2320 & BIOL 2020 recom. MCAT prep</p>					
<p>2 Biology LABs. Either the Anatomy OR Physiology lab will fulfill the 1st biology lab for most schools. The 2nd can be fulfilled by any biology lab such as BIOL 2015, 3115, 3205, 3235, 3515, 3525 or others. <i>Please note that some of these labs require the corresponding course.</i> Labs at SLCC may also be acceptable</p>					

OPTIONAL exploration courses:

UGS 1020 (1): Introduction to Premed.

LEAP 1100+1101 (3+3): College of Health LEAP

H EDU 2010 (3): Introduction to Health Professions

FPMD 5005 (3): Intro to Medical Professions

PED 5900 (1-4): Clinical Research Methods I. (Begins sequence for Pediatric Clinical Research Minor)
